Cylinder Arm Machines With Horizontal Hook

Cylinder arm machine equipped with excellent basic functions like sewing foot lift, stitch length adjustment, manual additional thread tension and alternating top feet

Feature :

- The powerful and effective feeding system with bottom feed, needle feed and alternating feet guarantees a trouble free and displacement-free material feed when processing most different fabric thicknesses and structures
- The extremely high sewing foot lift up to 20 mm max.
- Facilitates the feeding and removing of bulky workpieces
- High top feed stroke up to 9 mm allows the safe climbing over thick material plies
