DY 7002

Double Head Elastic Stitching Machine

Features :

Ultrasonic cutter device is used to ensure that the rubber band incision is flat and without wire drawing. When encountering metal splicing heads in continuous cycle operation, there is no need to stop the machine for manual operation, and the equipment automatically senses and automatically cuts. Automatically correct when the rubber band is misaligned on the interface to ensure error-free sewing at the edge interface.

Option: Ironing Devic

Application :

It is suitable for the splicing process of multiple specifications of elastic bands, and the stitches are smooth and beautiful.

Specification :

Highest sewing speed	2,800 rpm	Air pressure	0.5 Mpa 1.7 L/min
Sewing range	15×65mm	Weight	600Kg
Finished elastic diameter scope	120mm-999mm	Dimensions	1980x890x1200mm (L*W*H)
Needle model	Dp17x11#	Voltage	Single phase220V
