Needle Bar Stroke : 36.5mm

Weight : 240kg

Single Needle 360 Degree Horizontal Rotary Curved Post Bed Compound Feed Lockstitch Sewing Machine With Pneumatic Foot Lifter & Bartacking (Small Hook & Left Side Post Bed)

Features:

Single Needle, Unison Feed, 360 degrees of horizontal rotating of curved High Left Side Post Bed Sewing Machine

Horizontal rotating of curved high-posted(patent): Specially designed rotating curved posted.

The arc bed is joined with the postbed based on the centre of the axis.

It could replenish the sewing missing and improve the operation and assembly of the rotating curved posted.

Specially designed feed rock shaft. It is easy to assemble or replace the parts in the post and no need to lie down the machine, easy to make micro-adjustment of the up & down transmission while sewing, and improved the sewing & repairing efficiency.

Applied with the 360 degrees of horizontal rotating of the curved high-posted device suitable for stitching large & three-dimensional articles, such as boots, bags, suitcases,etc.
