

NG-01M

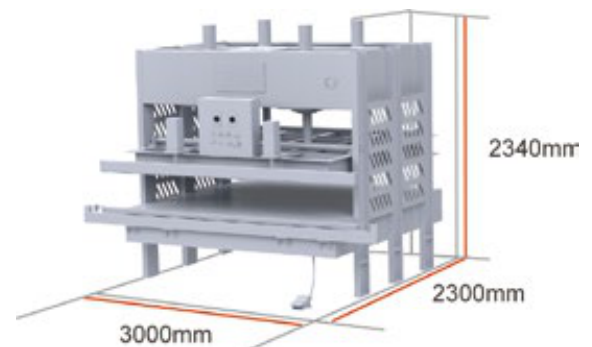

Semi-automatic mattress compression machine

ADVANTAGES

- 1 The most cost-effective compression model. with very stable performance and wide applicability. can quick compress mattresses of different models, materials, and thicknesses.
- 2 High production efficiency, simple operation, just place the mattress and bag, and seal them.
- 3 Save labor costs and greatly save storage, transportation space, and enterprise costs.
- 4 The machinery has CE certification, high safety, stable performance, and convenient installation and maintenance.

Machine size

TECHNICAL PARAMETER

Pressure Plate Size	2200*2100mm	Oil Pump Power	7.5 kw
Maximum Mattress Size	2100*2000*400mm	Heating Power	3 kw
Maximum Travel Distance	500mm	Machine Total Power	13.2 kw
Efficiency	1pcs/min	Machine Weight	2.8 Tons
Air Cylinder No	2 pcs	Machine External Size	L3000*W2300*H2340mm
Oil Cylinder No	4 pcs	Voltage	3 Phases 380V/50HZ (Customized)

• Pressure	50T (standard)	• Pressure plate distance	500mm
• Pressure plate distance	100T	• Custom distance	1000mm
