

NG-03M

Semi-automatic sofa Compression machine

MACHINE SIZES

ADVANTAGES

The Duke semi-automatic sofa bag compression machine is a compressor specially produced for compressing and packaging sponge products such as sponge sofa cushions and sofa bags. Its excellent compression function and stable performance can reduce the transportation volume of sofa bags, save storage space, provide convenience, and lower transportation costs. And while compressing the volume of 03M products, it also ensures the original shape and quality of sponge sofa bags and other products, greatly improving the packaging efficiency and benefits of sponge sofas and other products, making it a high-quality choice for sponge sofa manufacturers.

TECHNICAL PARAMETER

Pressure

Voltage	380V/50HZ
Pressure plate size	2100*2200
Maximum pressure	30T
Maximum lift	500 mm
Number of cylinders	2 pcs
Number of oil cylinders	2 pcs

Standard

Oil pump power	7.5 kw
Number of guide pillars	4 pcs, Φ 40 mm
Hydraulic station cooling	Equip
Mechanical total power	10.5 kw
Net weight of the model	3 ton
