

NG-15RS

Full Automatic Mattress Rolling Machine (Adjustable Diameter)

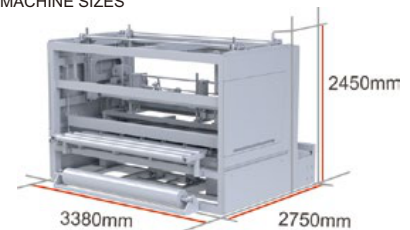

ADVANTAGES

- 1 The diameter of the machine package can be adjusted, and the size of the diameter is determined by the thickness and length of the mattress.
- 2 Wide application range, as long as the material allows for roll wrapping, whether it is a spring mattress, sponge, or latex, straight roll folding roll wrapping is applicable.
- 3 High production efficiency, simple operation, any worker can learn to operate in just 3 minutes saving labor.
- 4 The cost of packaging consumables is low. and a 40 micron PE film wrapping film can be used (without the need for heat sealing, or a 90 micron PE film heat sealing). The packaging effect is perfect. firmly wrapped. economically beautiful. cost-effective. and easy to change film.
- 5 After rolling, the volume of the mattress is greatly reduced, thereby greatly reducing the transportation and storage costs of the product.
- 6 The machinery uses Siemens PLC control system and electrical components. with stable performance. The control panel can be translated into various languages and is equipped with a remote system for easy installation and maintenance.

MACHINE SIZES

diameter range
220mm~480mm

TECHNICAL PARAMETER

Mattress Width	≤2100mm	-	-
Efficiency	2 pcs/min	Weight	3.5 Tons
Machine Total Power	17.6 kw	Machine External Size	L3380*W2750*H2450mm
Rolling Exit Diameter: (Adjustable)	220~480 mm	Voltage	3 Phases 380V/50HZ (Customized)
