

NG-17R

Mattress Compression Roll Packaging Machine

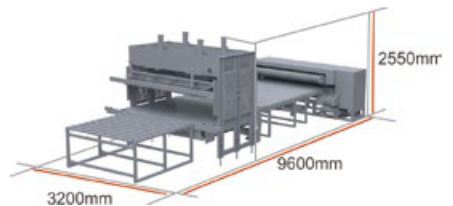

ADVANTAGES

- 1 Mattress hand bagging first , compression and then welding at the last side.
- 2 Diameter of mattress roll package is fixed and unadjustable , clients need to confirm the size according to the mattress sizes.
- 3 The plastic bags or tube is customized according to the machine's outlet diameter.
- 4 After rolling, the volume of the mattress is greatly reduced, thereby greatly reducing the transportation and storage costs of the product.
- 5 The machinery uses Siemens PLC control system and electrical components, with stable performance. The control panel can be translated into various languages and is equipped with a remote system for easy installation and maintenance.

NG-17R is the Simplify model , mattress compress and roll packing machine , which composed of two parts , compressor , and roll packing machine can be used separately.

MACHINE SIZES

DIAMETER CHOOSE(FIXED)

200mm 230mm 268mm 290mm
320mm 370mm 400mm 450mm

TECHNICAL PARAMETER

Maximum Mattress Size	2000*2000MM	Suitable Plastic material	PE Plastic
Maximum Mattress Height	400 MM	Air pressure	0.6 - 0.8 MPa
Fixed Roll diameter range	290/320/340/370/400/450MM	Net weight	5500 KG
Maximum Pressure	60T	External Dimension	L9600*W3200*H2550MM
Efficiency	1 MIN /PCS	Voltage	3 Phases 380V/50HZ
Total Power	24 KW		(Customized)
