

NG-28RS

Full Automatic Mattress Compress Fold Roll & Packaging Machine

NG-28RS Full Automatic mattress wrapping, compressing, sealing, fold and roll packing production line is the new developed and upgraded . After compression, it can fold the mattress to half and roll afterwards to minimize the shipping, storage and operation costs and maximize the profit and competitiveness. Mattress standard plastic wrapping only available by switching the machine working mode.

- 1 Different functions and working mode for options (Standard plastic film packing/ Pressing/ Rolling individually/ Wrap-Compress-Roll/ Wrap-Gom press-Flod-Roll).
- 2 Packaging Cost Saving , For the front compress machine used 0.07mm to 0.09mm thickness plastic film , and the last roll packing machine used 0.04mm thickness film.
- 3 Can be combined with the stacking machine for mattress plastic wrapping only.
- 4 The layout of the production line designed in straight line or corner for options according to the site of factory.
- 5 Siemens control system (PLC,HMI,Inverter); The control panel can be translated into various languages and is equipped with a remote system for easy installation and maintenance.

TECHNICAL PARAMETER

Maximum Mattress Size	2200x2000 mm	Pressure plate size	2300*2260mm
Maximum Mattress Height	450 mm	Maximum lift distance	500mm
Roll diameter range	220 - 480mm	Weight	About 16 tons
Efficiency	35 s/pcs	Oil cylinders	4 Pcs
Total Power	55.5 kw	Voltage	AC 380V/50Hz

Pressure	60T (standard)
