

NG-40RL

Semi-automatic sofa mat roll-packing machine

MACHINE SIZES

Optional Compression Machine
NG-40M-B, NG-40M-C

Unlimited diameter

80%

Reduced 80% Volume

ADVANTAGES

The NG-40RL compression equipment is designed specifically to optimize the transportation and storage of sponge sofas. Its excellent performance can significantly reduce the size of the sofa, making it not only convenient for logistics transportation but also saving storage space. The device has a user-friendly interface and extraordinary efficiency, greatly improving the packaging efficiency of sponge sofa products and the smoothness of the overall production process. Therefore, it has become the preferred tool trusted and respected by many sponge sofa manufacturers.

TECHNICAL PARAMETER

Voltage	380V/50HZ	Applicable product	Foam sofa, foam mattress
Pressure plate size	2100*2500	Rolling diameter	unlimited caliber
Maximum pressure	80T	Roll-packing material	PVC, PE film(膜)
Maximum lift	1000mm	Total power	about 13kw
Maximum size of mattress	2000*2100mm	Net weight	about 5T
Mattress thickness	≤400mm	Floor area	4700*4400*3500mm
	Rolled only after compressed		

Pressure	NG-40M-B, 50T	NG-40M-C, 80T
