

ADVANTAGES

NG-41RL can compress sponge sofas into smaller volumes, facilitating transportation and storage, while maintaining the original shape and quality of sponge sofas with plastic film packaging, which is not affected by dust and moisture erosion. Easy to operate and highly efficient, improving the packaging efficiency of sponge sofas is an ideal choice for sponge sofa manufacturers.

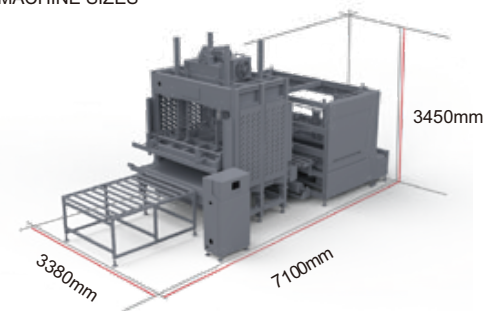

Sofa compression and packaging machine solves transportation and storage problems in soft home furnishings, reducing volume by 80% and increasing container loading by 4 times.

diameter range
220mm~480mm

MACHINE SIZES
