

NG-54M

Automatic mattress/foam kraft paper packing machine

MACHINE SIZES

ADVANTAGES

The mattress kraft paper packing machine features high automation, efficiency, and adaptability for large products. Its precise cutting and tight wrapping ensure a heat and secure package, protecting the mattress from damage. The paper supply system and programmable controls enhance production flexibility, accommodating various sizes. The machine is robustly designed, with high safety standards and easy maintenance, ensuring long-term stable operation. Its eco-friendly and energy-saving design reduces material waste and energy consumption, meeting the demands of modern businesses for efficient, sustainable packaging. Ideal for the mattress industry, it enables efficient production.

TECHNICAL PARAMETER

Voltage	380V/50HZ	Packing Film Widht	≤2950 mm
Mattress Width	800-2100 mm	Efficiency	120 pcs/h
Mattress Length	1800-2100 mm	Power	15 kw
Mattress thickness	100-400 mm	Weight	4.5w
