

NG-61MS

Full Automatic Mattress Compress Machine

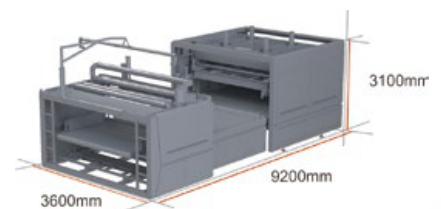

• Pressure	60T (standard)
• Pressure plate distance	500mm
• Custom distance	1000mm

ADVANTAGES

- 1 integrated fully automatic mattress compressor, mattress compression is automatically completed from inlet to outlet by conveyor belt, and has functions such as automatic positioning sensing and automatic three sided heat sealing.
- 2 Quick hydraulic system, high production efficiency, simple operation, only need two rolls of film up and down, place the mattress, automatically take photos, and automatically sense the width of the mattress to compress the film.
- 3 it can connect the assembly line back and forth, saving time and effort, reducing labor intensity, saving workers' costs, and greatly saving storage, transportation space, and enterprise costs.
- 4 The machinery has CE certification and high safety. It uses Siemens PLC control system and electrical components, with stable performance. The control panel can be translated into various languages and is equipped with a remote system for easy installation and maintenance.

MACHINE SIZES

TECHNICAL PARAMETER

Pressure Plate Size	2300*2260mm	Machine Total Power	23 kw
Maximum Mattress Size	2200*2000*450mm	Weight	8.5 Tons
Maximum Travel Distance	500mm	Machine External Size	L9200*V3600*H3100MM
Efficiency	3 pcs/min	Voltage	3 Phases 380V/50HZ
Oil Cylinder No.	4 pcs		(Customized)
