

HL5217C-12880

Lifting & 360 Degree Rotating Head Heavy Duty Templating Sewing Machine

HL5217C-12880

Lifting&360 ° rotating heavy duty templating sewing machine(Vertical hook)

- The machine head has automatic lifting and rotating functions, lifting height 50mm;
- 360 ° infinite rotation, no reverse seaming, fast turning angle ,high efficiency;
- Large sewing range of 1280X800mm, X-Y Cartesian coordinate feeding, driven by the same servo motor;
- Independent servo motor drive for upper and lower axes, flexible control, high precision,and fast operation;
- The base design adopts integrated casting molding, which is steady, durable,high-precision,and has low vibration;
- 5217C has 3times LU-960 vertical hook reducing the frequency of bobbin replacement and improving production efficiency. The new oil supply system runs stably and is easy to adjust;
- Adopting a combination of stepper motor driven inner pressure foot and pneumatic outer pressure foot for easy adjustment;
- Cylinder driven straight knife thread trimmer;
- Fully functional: automatic cutting, automatic foot press foot, thread breakage detection, template recognition, E-tension, needle cooling system, independent quantitative bobbin winder, bottom thread alarm, IoT device, etc;
- Convenient template automatic recognition and quick template clamping mechanism, stable pressure clamping ,advanced computer control system, large-sized color touch;
- Display screen, easy and intuitive operation;
- Optional laser cutting, scanning, automatic bobbin changing, point pen, wire scanning and other functions.
